

TX14D12VM1BAB 5.7" QVGA (320 x 240) TFT

| Item | Descriptions |
|------------------------|--------------------------------------|
| Part Number | TX14D12VM1BAB |
| Display Diagonal | 5.7 |
| Resolution | QVGA (320 x 240) |
| Technology | TFT |
| Display Color | 262K |
| Display Mode | Transmissive |
| Effective Viewing | - |
| Overall Dim. | 131 x 102 x 10 |
| Backlight | White LED |
| Brightness (Nits) | 350 |
| Contrast Ratio | 350:1 |
| Operating Temp (deg C) | -20+70 |
| Viewing Angle | - |
| Comments | 21 x White LEDs, Ultra Compact Panel |

Specifications may be subject to be change without notice.

- *1 The operating temperatures indicate the temperatures at which the LCD lights up, but the optical characteristics (e.g. brightness and contrast ratio) are specified only for the initial period of 25°C. The operating temperature range does not guarantee the reliability or life of the product in that range. Note that the life of the backlight will be significantly reduced if the LCD is used at a lower range of operating temperatures. In addition, the LCD will be less responsive at low temperatures, while display irregularities will occur at high temperatures.
